SH. BIPLAB SARKAR

PRINCIPAL

MESSAGE FROM THE PRINCIPAL DESK:- The aim of education is to produce responsible citizens of a country. Every child is unique. Each child grows at its own unique pace. Some children exceed in academic performance while other exceed in co-curricular activities. To cater to their need, KVS, provides varieties of platform so that the students can maximize their abilities. Enforcement of CMP by KVS plays a vital role in fulfilling the aims and objectives of education. The newsletter is a medium that reflects the achievement of students in numerous activities.

I would also like to extend my gratitude to Sh. B.K. BEHRA, D.C. KV Tinsukia region, for his valuable support and guidance.

If I have a super power

If I have a super power. I will try to protect the world from evil forces. I shall try to bring the world out of poverty. I will give some money and food to the poor and hungry people. When people throw waste here and there I will stop them and say to them don't throw waste here and there. I will stop the people who are cutting trees. I will help the farmer to grow crops. I will help people and animals when they are in trouble. I will help the people who don't have water to drink. I will also help the people in emergency. I will help the police to catch criminals. When anyone is in trouble I will be there for help.
